

Name of Pastor: N. Surya Rao
Name of Village: Ganesh Nagar
Name of Region: Adilabad
Name of State: Telangana
Date of Dedication: April 30, 2015
Name of Donor: FRESH WATER FRIENDS U.S.A.

About the Pastor & Village:

This village has a population of about 350 people. Most of them are daily laborers winning their daily bread and live in huts. There is no water facility in the entire village. They spend their earnings for alcohol consumption. Because they do not make much money as laborers, they suffer with debts. The literacy rate is very low as they do not send their children to the school. Most of them follow Hinduism.

Pr. N. Surya Rao started the church ministry in 2002. In the beginning, there was heavy opposition against the church ministry. At present there is no opposition, and the church is growing gradually. There are 48 believers in the church, and 38 of them are baptized believers. We believe that many more would realize the love of Jesus Christ through this Living Water Project in the near future.

Dedication Service:

Pr. James Kannuri, the area coordinator, was present for this special occasion. Around 35 people gathered for the dedication service. Pr. C. Prabhudas, who is the coordinator of Adilabad region, offered the opening prayer, and Pr. Surya Rao led the people in praise and worship. Pr. James Kannuri shared the Word of God very shortly from Genesis 26:18-22. Through the short message, the people were encouraged. Pr. James Kannuri offered the dedication prayer and opened the plaque for the glory of God. Then the people very happily carried the water to their homes.

Pr. Suryarao later added, "We, as a church, have been praying for a long time for a water well for our community and our church believers. God heard all our earnest prayers and now has granted this Living Water Project through the Vision 2000 movement. We are so thankful to God for this great blessing. We are so sure that about 150 people would be benefited every day through this water well. Our special thanks to Rev. Samuel D. Stephens and the donor, Fresh Water Friends, U.S.A for their sacrificial offerings to have the living water project. We are sure that we would be always remembering the donors and their families in our prayers."
